100% ALIGNER
MECHANICS

April 19-21, 2024 | Stockholm, Sweden Dr. Enzo Pasciuti

Do you want to enhance your knowledge and skills in aligner orthodontics?

This comprehensive Expert Course on Aligner Techniques is designed to equip you with optimal practices for treating malocclusions using aligners.

In this intensive course, you will learn how to optimize your planning to achieve reliable, consistent results. The speaker will guide you through his personal 5-step approach to review Approver cases and make results more predictable, reducing the number of modifications required*. You will learn how to create a treatment set-up, choose the right attachment, work on treatment staging, and manage the anchorage. Controlling difficult movements and engineering the Approver Setup will also be covered. The course includes best practices for communicating effectively with technicians, protocols for treating malocclusions with aligners, and tips for the clinical management of aligner patients.

WHO SHOULD ATTEND

Orthodontists with 50+ cases who want to advance their clinical practice even further

COURSE HIGHLIGHTS

- › Challenge yourself to push new boundaries
- › Feel confident with complex biomechanics
- › Increase the predictability of your Approver Setup with a 5 steps protocol
- › Extend the treatment with clear aligners to various types of malocclusions
- › Increase the satisfaction of your aligner patients

Expert Course Aligner Techniques

Understanding anchorage management in complex scenarios to achieve reproducible results

ABOUT DR. ENZO PASCIUTI

Graduated in dentistry in 2004, Dr. Enzo Pasciuti received his Master in Orthodontics in 2007 at Milan University. Over the last 10 years, he has treated over 2,000 cases with clear aligners. Since 2018, he has lead courses in aligners to share his expertise in treatment predictability. Over 800 Italian orthodontists can testify to his course in taking control in aligner orthodontics. He has also lectured and conducted courses in Spain, Portugal, Romania, and Poland, to over 1,000 professionals. He received the IBOA (Italian Board of Orthodontic Aligner) and the EBO (European Board of Orthodontists). Currently, he teaches his aligners protocols as visiting Professor at Rome University of Tor Vergata and he is the owner of an orthodontic office close to Milan.
