2018

an exciting Year for Ormco and You!

Dear Doctors and Business Partners,

Let me invite you for an extraordinary Journey in the coming months with a couple of new products and innovations.

Additionally, Ormco is preparing exemplary educational events with the Ormco Symposium

- *Cape Town South Africa , February 2-4*

- *Dubai UAE, December 6-8*

Let's go together to this Journey - with new, better and innovative products combined with effective high level educational events so that our patients will get the best smile ever.

Yours Faithfully,

Steffen Saupe
Senior Director EMEA

**Notes on torque
selection**

by Dr. Mavreas

"This brief report intends to shed some light on certain aspects of the torque selection process which is closely connected to the current practicing of the Damon system. In addition, it may be useful to other practitioners irrespective of the bracket system employed."

REFINED STRENGTH | PREFERRED AESTHETICS | EASIER DEBONDING

symetri™ CLEAR

Superior in torque and tie wing strength compared to leading competitor*

Smooth rounded surfaces increasing patient comfort and reducing amount of reflected light. Enables bracket to blend into natural enamel.

Slot edges have more profound rounding to reduce archwire notching and facilitate easy sliding

Anatomical pad design with compound-contoured base enhancing fit to each tooth

Low profile

Ample under tie-wing area, facilitates secure double tying when needed

Visual axis indicator assists with accurate line up and placement

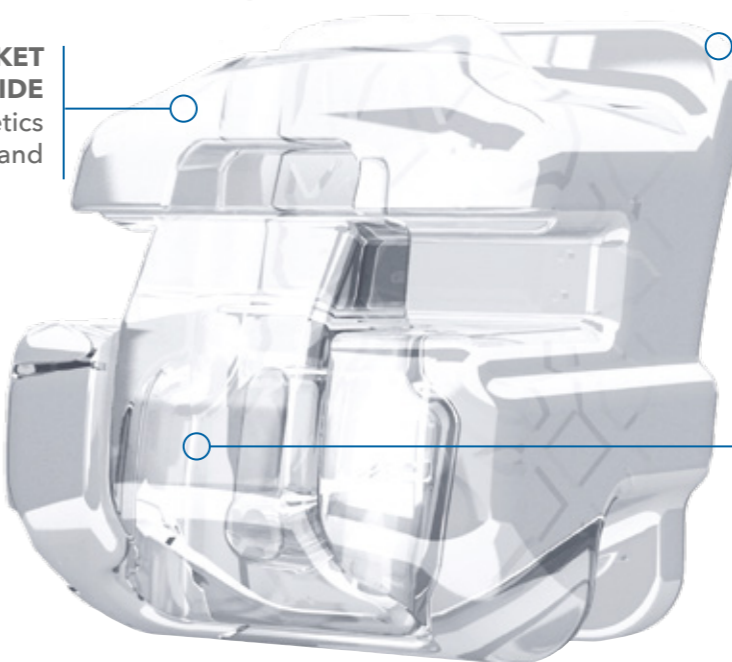

DOCTOR BROCHURE

*data on file

One aesthetic appliance for all your patients

DAMON™ CLEAR2

Efficiently treat all your patients to a beautiful result with the improved **Damon Clear2** bracket that provides the control needed for you to treat a wide variety of cases with outstanding results.

100% CLEAR BRACKET BODY AND SLIDE for the supreme aesthetics patients demand

SELF-LIGATING BRACKET DESIGN eliminates the need for elastomerics which stain and collect bacteria

VARIABLE TORQUE OPTION for patient-specific mechanics

FOUR SOLID WALLS with improved precision slot for 2x the rotational control* for meticulous finishing and efficient treatment

INNOVATIVE SPINTEK™ SLIDE for easy and comfortable wire changes

PATENTED LASER-ETCHED PAD for optimal bond strength and reliability

DOCTOR BROCHURE

Minimal force debonding with our patented debonding plier. One squeeze. One click.

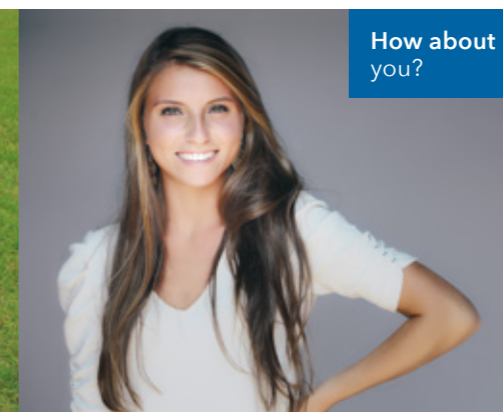

Rounded and smooth for Comfort and Aesthetics.

Ormco's patented laser etched pattern on the surface of the base is precisely controlled to provide consistency in bonding and debonding.

Brackets? What brackets?

How about you?

Reveal your new smile.

Ormco School of Orthodontics

During the year of 2017 Ormco School of Orthodontics has spread from Russia and Baltics now also to Ukraine, Azerbaijan and Moldova gaining more and more participants and happy graduates. It is a thorough interactive educational program spread out on 2-years with 4 modules, where the doctors will not only gain theoretical knowledge but can also have hands-on practical part.

As continuous education is a crucial part of Ormco's strategy, we are happy to announce that starting from 2018 Ormco School of Orthodontics will also be available in Hungary and Romania in English language.

The detailed information will be available on our web soon.

"Blending Microaesthetics with INSIGNIA" by Dr. Bader Bogdan

It was My Utmost Pleasure and Honor Participating in the general session of Ormco's most "globally" Attended meeting ; The Insignia 7th Global Users Meeting / New York / USA, 19 - 21 October 2017, that was Described as a huge success , and Included over 165 Attendees from over 20 Countries .

It was indeed an Unforgettable Experience, Especially that My Participation is Deemed to be the First of its kind Representing the Region, I must Admit it Was not Easy , but the Amount of Connection I Felt with the Audience was Impeccable, the Positive Supportive Atmosphere Was Overwhelming, I Really Felt Privileged to be Standing In front of that Crowd , Sharing the Depth of my Scientific Understanding and Expertise on this Innovative Technology.

I believe that I had Succeeded In Presenting Insignia as the Only Bone Remodelling Orthodontic Tool with a Root Oriented Approach that is Deemed to Always Enhance Facial Aesthetic , and Added Something to the Philosophy , Art and Technology Of The Insignia Growing Empire, I would Proudly Say that I have Established Insignia as an Integral Treatment Option in Jordan, And I stood There on that Stage , Sharing the Ultimate Vision, And Holding the Passion, Ambition and Belief of My Team, and All the Pioneer Orthodontists in My Region EMEA, that is Dearly Attached to this Technology .

Ormco is part of Danaher Dental Platform and specializes in field of orthodontics.

After the success of the first symposium in 2016, Ormco organized its 2nd symposium in Bengaluru on Sep 17th and 18th on the theme of "Simplified Orthodontics".

There were 2 international and 4 national speakers in this program.

Dr Jean Rene Van Becelaere presented his lecture on "Important Basics to Master the Damon System and Prepare the Best & Easiest Finishing".

Dr Dimitrios Mavreas lectured on "Torque Selection for Excellence in Finishing".

Among national speakers were Dr C S Ramachandra, principal & HoD Maruthi Dental College Bengaluru; Dr Gurkeerat Singh, Prof & HoD S R Dental College Faridabad; Dr Abhisek Ghosh from Kolkata and Dr Aravind M, Reader at KLE Institute of Dental Sciences Bengaluru - all presenting various simplifying techniques for modern day orthodontic practitioner.

This event saw an attendance of 270+ from across the country.

The symposium was preceded by Damon Bonding Workshop, held at RV Dental College & MSR College, conducted by international speakers and saw a participation of more than 100 participants.

This event also had an e-poster campaign where post-graduates from various colleges participated and presented posters related to the theme of the event. Top 3 winners got a citation from Ormco.

The delegates' feedback on the quality and content of the program was excellent.

"...well-planned well-done..."
Dr D K Singh, Noida

"...great program, well managed..."
Dr Vaibhav Nepalia, Jaipur

"...great speakers, wonderful event..."
Dr Siddarth Arya, Bengaluru

1st Ormco Symposium in Saudi Arabia

As part of Ormco continuous education strategy in the Middle East and in cooperation with our strategic partner in Saudi Arabia, the Saudi Orthodontic Society, Ormco team have successfully conducted the 1st Ormco Symposium in Riyadh, Saudi Arabia with more than 150 attendees through the 1st & 2nd of December 2017.

The meeting started on the, 1st of December with a one full day session for Dr. John Lin lecturing about different Damon + TAD's Mechanics followed by a Damon Bonding Workshop by Dr. Dimitris Mavreas for 40 orthodontists.

During the second day, two main sessions were, conducted by Dr. Dimitris Mavreas and Dr. Tim Bandeen lecturing about Damon Finishing Techniques and why Insignia is the future which were followed by another bonding workshop for 40 orthodontists

KOL meeting in Munich

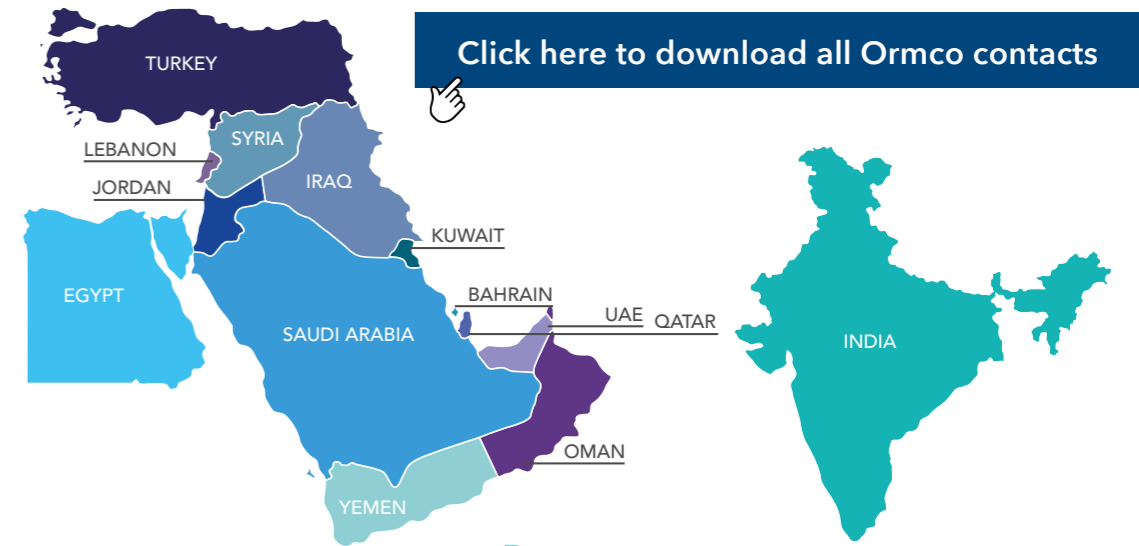

During our Last KOL meeting in Munich, we had very exciting sessions with our 3 speakers, Dr, Homoly, Dr. Alan Bagden and Dr. Elizabeth Menzel and not to forget the Bavarian adventure during the Oktoberfest!

Dr. Elizabeth Menzel took the time to share with us how to make professional orthodontic pictures - one of the key elements of a good lecture presentation.

Dr. Alan Bagden gave his Tipp's and Tricks for the right opening and closing of a lecture, which was very beneficial for everyone.

Dr. Homoly's session was very exciting for everyone, with the presentation skills and making Experts interesting! A very special thanks for providing us with his interesting book.

Looking forward to more Successful and interesting KOL Meetings together!
